

Five Finger Rule

Looking for a good book? Remember to use the five finger rule to choose a "just right" book for you. Open the book and begin reading. Each time you come to a word which you cannot read, put up one finger.

If you read the book and you didn't need to put up any fingers, the book is too easy.

If you put up all five fingers, the book is too hard for you right now.

If you have 1-4 fingers up, you have found a "Just Right" book for you!

Happy Reading!
